DETAILED ACTION

Allowable Subject Matter

1. Claims 1-11, 13-23, 27-39, 41 are allowed.
2. The following is an examiner's statement of reasons for allowance:
3. Process claims 1-11, 13-14 were analyzed under 35 USC 101. It is recognized that, in order to be statutory, a process claim must be 1) tied to a particular machine or apparatus, or 2) it transforms a particular article into a different state or thing. *In re Bilski*, 88 USPQ2d 1385 (2008). It is also recognized that a general purpose computer may be converted into a particular computer through the operation of software on the computer. *In re Alappat*, 31 USPQ2d 1545 (1994). For the instant invention, it is clear that the process must be carried out via software operating on a computer. Independent claims 1 require at least a computer processor (see the two limitations prior to the last). As such, the process is tied to a particular machine and meets the *Bilski* test.
4. The claims are novel and non-obvious over the art of record. Each individual feature is known in isolation. However, the combination as arranged is novel and non-obvious over the prior art of record.
5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
